

## "MORDAX" NAILS

"Mordax" Nails provide similar benefits as our Studs, in a simple, economic form, with no special preparation of the shoe required.

"Mordax" Nails are available in sizes 3 - 8.

## TOOLS & ACCESSORIES

**Tee Taps**  
5/16" & 3/8" BSW

**Sleepers**  
5/16" & 3/8" BSW

**Socket Wrenches**  
5/16" & 3/8" BSW

**Taper Punches**  
B.1, B.2 & B.3

**Spanners**

## "MORDAX" STUDS

The "Mordax" Stud is the original non-slip device for horses, in use for more than 70 years, having been originally developed in conjunction with the Swiss Army. We have extensive experience manufacturing "Mordax" Studs for the British Army, Police Mounted Sections, the Royal Mews in London, and for farriers and riders worldwide, for numerous equestrian activities.

Fitting "Mordax" Studs will give your horse better grip and greater confidence, whether on the road, whilst trekking or in the field - whatever the conditions: wet, dry or ice-bound. As an additional benefit, the durability of the "Mordax" Stud also increases the life of the shoe.

"Mordax" Studs and "Mordax" Nails should only be fitted by, and used under the supervision of, a Registered Farrier. Your farrier will understand your horse's individual temperament, as well as the local riding conditions, so will be able to advise on the most appropriate models to use.

## HOW THE "MORDAX" STUD WORKS

Tungsten Carbide Tip

Machined Steel Shroud

The resultant force created by the weight of the horse and rider on the small, hard tip of the stud provides that extra bit of grip on most surfaces.

As the "Mordax" Stud wears, it still retains its efficiency in preventing slipping, as the harder tungsten carbide tip remains proud of the softer, machined steel shroud.

PUNCH SIZE	B.3
TOTAL LENGTH	15mm
PROTRUDING LENGTH	6mm

### N STUD

PUNCH SIZE	B.1
TOTAL LENGTH	18mm
PROTRUDING LENGTH	7mm

### VH STUD

PUNCH SIZE	B.2
TOTAL LENGTH	20mm
PROTRUDING LENGTH	9mm

## TAPERED PLUGS

### C PLUG

PUNCH SIZE	B.3
TOTAL LENGTH	10mm

### N PLUG

PUNCH SIZE	B.1
TOTAL LENGTH	12mm

### NVH PLUG

PUNCH SIZE	B.1
TOTAL LENGTH	12mm

### NVH/VH PLUG

PUNCH SIZE	B.1
TOTAL LENGTH	12mm

ALL LENGTHS ARE APPROXIMATE

## SCREW-IN STUDS

### CS SCREW-IN

THREAD	5/16" BSW
TOTAL LENGTH	16mm
PROTRUDING LENGTH	8mm

### RS SCREW-IN

THREADS	3/8" & 5/16" BSW
TOTAL LENGTH	18mm
PROTRUDING LENGTH	10mm

### NS SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	16mm
PROTRUDING LENGTH	8mm

### P SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	24mm
PROTRUDING LENGTH	16mm

### O SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	20mm
PROTRUDING LENGTH	12mm

### B SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	22mm
PROTRUDING LENGTH	14mm

### OLY ROUNDED SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	27mm
PROTRUDING LENGTH	19mm

ALL LENGTHS ARE APPROXIMATE

## JUMPING AND POLO STUDS

- without carbide tips

### JUMPING P SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	22mm
PROTRUDING LENGTH	14mm

### JUMPING O SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	19mm
PROTRUDING LENGTH	11mm

### JUMPING B SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	21mm
PROTRUDING LENGTH	13mm

### JUMPING SQUARE SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	26mm
PROTRUDING LENGTH	18mm

### POLO SQUARE SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	20.7mm
PROTRUDING LENGTH	12.7mm

### SMALL SQUARE SCREW-IN

THREAD	3/8" BSW
TOTAL LENGTH	19mm
PROTRUDING LENGTH	11mm

ALL LENGTHS ARE APPROXIMATE
